With more than 2,000 people diagnosed with [Narcissistic Personality Disorder](#)  
(narcissists) and with tens of thousands of their  
family members, friends, therapists, and colleagues.

Dear Author/Editor,

I am Sam Vaknin, author of ["Malignant Self-love: Narcissism Revisited"](#), a pioneering  
work of reference, now in its 10<sup>th</sup>, DSM-5 compatible revision, about [Narcissistic Personality  
Disorder](#) and of [other books](#) about [personality disorders](#).

I have been studying [pathological, malignant narcissism](#) for several years now, mostly in the  
following contexts:

- I. Corporate settings and in Politics - click [HERE](#) for online resources

II. **Abusive and Dysfunctional relationships** - click [HERE](#) for online resources and a [TIP SHEET: Cope with Your Abuser](#)

**Narcissistic Personality Disorder (NPD)** is a serious, often undiagnosed condition, frequently related to abuse in childhood.

In many cases the disorder compels the sufferer to become the abuser in turn.

Once almost unheard of, pathological narcissism is now considered to be at the heart of phenomena as diverse as **corporate malfeasance, workplace bullying, the emergence of murderous dictatorships, domestic violence, and serial killings.**

**I would be delighted to assist you in putting together a report, a segment, an issue, an article, or series of articles - regarding this disorder.**

***"Clinicians, researchers and narcissistic abuse victims alike have benefited from this one-of-a-kind book about narcissistic personality disorder. As a psychologist who specializes in narcissistic abuse recovery, psychopathy, and narcissistic personality disorder (NPD), I endorse this book as an empowering clinical tool. This resource has helped me to form a clearer diagnostic impression of malignant narcissists who seek my help during episodes of desperation and withdrawal due to narcissistic supply depletion. Armed with a more comprehensive understanding of NPD, I feel calm and in control when ambushed by narcissistic rage during diagnostic interviews and psychotherapy sessions. Vaknin's familiar descriptions of psychological theory and clinical terminology are quite helpful in managing transference and countertransference issues in order to maintain healthy therapeutic boundaries. This book is an invaluable resource to mental health professionals to combat compassion fatigue and psychological abuse when working with cluster b personality pathology. ***How to Use Skype, WhatsApp, or Viber to Interview me:***

1. You can simply use Skype, WhatsApp, or Viber to call my landline, or my cell phones (+38978319143 or +79884640967).

2. OR:

You can download Skype 4.0 or later and establish a 3-way connection to Sam Vaknin by first calling Sam, then calling/adding in your show's call-in number.

You can place a 3-way call to Sam Vaknin. Your Skype (computer) is able to connect your U.S. land phone with Sam's land phone (Macedonia). It should be done as a Skype 3-way 'conference' call.

For Sam to 'call in' to your radio show, this is what to do:

Call Sam's land phone (using Skype on your computer), then call your show's call-in number. The call then becomes a 3-way 'conference' call. If you put your own Skype microphone on 'mute', you can eliminate all background noise from your end of the 'conference.'

**Summary:**

Either use Skype to call Sam's landline, or his cell phones (+38978319143 or +79884640967).

OR:

Use Skype on your computer, call your own #, then call (add in) Sam's number in Macedonia.

You can also use your land line phone for a 3-way (no Skype). Just add an international long-distance plan to your account and try a 3-way using your own phone.
